

BECHTA GROUP, LTD.
FACILITIES CONSULTANTS

Bechta Group Facilities Consultants, or just BGL if you prefer, was founded in 1984 by Walt Bechta and from our very beginnings, we have always done things just a little differently.

Now, twenty years later, BGL still occupies a unique niche in Denver. We bring a level of resourcefulness to any project that comes from years of diverse experience, relationships forged, and a vast understanding and respect for every phase of even the most complex of projects.

Our teams work for clients ranging from aeronautics to finance firms and from hospitality to healthcare facilities. We've worked with some of these clients for close to 20 years and completed literally hundreds of projects for them. We've earned a reputation of being rather exacting, reliable and tenacious.

When you work with BGL you can count on us to collaborate closely with you. To bring leadership and direction to every phase of your job and to sweat the detail stuff so you don't have to. You'll be glad you hired us – promise.

BECHTA GROUP, LTD.
FACILITIES CONSULTANTS
